Arizona Department of Water Resources Digital Data Resources

The Arizona Department of Water Resources webpage has different types of self-service data sources available as described below.

Interactive Maps and ADWR Open Data:

This link includes the following interactive maps:

- Assured and Adequate Water Supply
- Groundwater Site Inventory (new version)
- Well Registry
- Community Water Systems
- Groundwater Use Right
- Arizona Water Banking Authority
- Subflow Zone Delineation for Verde and San Pedro Watersheds
- Statement of Claimant
- Groundwater Site Inventory (classic version)

Additionally, the ADWR GIS page has searchable Open Data Sets.

Dashboards:

ADWR has been gradually adding new dashboards for the past few years. This dashboard collection page displays the current list of dashboards along with a picture and brief explanation. The current collection includes:

- AMA Agriculture
- AMA Annual Supply and Demand
- Colorado River Management
- Community Water Systems
- Drought
- Hydrology
- AMA Industrial Demand by Subsector
- AMA Municipal Provider Information
- Overdraft Data Dashboard
- AMA Recharge Data
- Aggregate Well Data
- Water Management Assistance Program
